

Sol Barrera W.

WEB DEVELOPMENT CONSULTANT

Professional Experience

My experience consists of a mix of Web Development Consulting and Freelance Translating Services (English/Spanish).

When working as a Web Dev consultant I've undertaken tasks such as:

- Working with CMS systems: Installing, configuring, migrating, backing up and customizing [WordPress, Joomla! Drupal]
- Adapting purchased themes and templates to Clients specs.
- Evaluating plugins, themes templates and software for client projects.
- Installing and adapting scripts (PHP, Javascript)
- Creating custom software (PHP, ASP/VbScript,)

PERSONAL SKILLS

OTHER SKILLS

LANGUAGES > English, Spanish, intermediate French

PROGRAMMING > HTML, CSS, basic JavaScript, Python

MORE > Web research extraordinaire, Mac user, Photoshop Basics

Work Experience

LATEST WEB DEVELOPMENT PROJECTS

JANUARY 2016 – PRESENT

HacheUve.com - The client, an architectural group, wanted an easier way to maintain their own site via the back end. A new look was not required but I tested several “builder” solutions and settled on the Divi Theme. This gave them a little more flexibility from their original custom coded website.

concursopanama500.org - This was a two part project. First a one page project created to promote a contest to find a trademark for Panama City's upcoming 500 year anniversary. Implemented with Divi Theme.

Later a second stage added a blog and a third stage the interactive contest submission with Gravity forms.

Aramolaw.com - Server migration of an older Drupal install which entailed debugging several errors and vulnerabilities as the server configurations were slightly different and the software is out of date.

Medical Depot - Lovely project to update their current website and online catalog. Unfortunately the project was cancelled midway. Done with Divi Theme.

Some of the projects can be viewed at my site solybarr.com

PAST WEB DEV AND GENERAL CONSULTING

In the past I've worked with different companies in the Republic of Panama, either consulting, making software, translating or even Customer Service and Sales.

Most of the work was done remotely, as a subcontractor.

Some of these companies are listed below:

- Epiphy, Corp - epiphycorp.com
- Token Studio - tokenstudio.com
- Dreamcatcher Studio - dreamcatcher-studio.com
- BootStudio - bootstudio.com
- Smithsonian Tropical Research Institute - stri.si.edu
- Intcomex Panama - intcomex.com.pa
- Language Line Services (Now Pacific Interpreters)
- Dell Computers
